ABOUT THE ASTRAL COLLABORATIVE

The Astral Collaborative is a dynamic youth organization focused on creating transformative opportunities in leadership, entrepreneurship, public policy, innovation, and professional development. By bringing together ambitious students, emerging leaders, and distinguished experts from diverse fields, the organization cultivates an environment where ideas are exchanged, skills are refined, meaningful connections are forged, and future leaders are shaped.

Driven by a commitment to bridging the gap between academic learning and real-world impact, The Astral Collaborative provides platforms that encourage critical thinking, collaboration, and practical problem-solving. Through carefully curated academic programs, competitions, networking platforms, conferences, and experiential learning initiatives, participants are empowered to engage with contemporary challenges, explore innovative solutions, and develop the skills necessary to excel in an increasingly interconnected world.

Through its initiatives, The Astral Collaborative seeks to inspire excellence, encourage innovation, and equip young individuals with the confidence, capabilities, and opportunities required to become impactful leaders in their respective fields.

ABOUT THE ASTRAL SUMMIT

The Astral Summit is the flagship annual event of The Astral Collaborative, designed to **bring together ambitious students, future leaders, innovators, entrepreneurs, and changemakers from across the country**. Built on the belief that learning extends beyond the classroom, **the Summit provides a platform for intellectual discourse, healthy competition, skill development, and meaningful networking**.

The journey began with Astral Model United Nations (AMUN), the inaugural edition of the Summit, which **established a strong foundation through high-quality debate, diplomacy, and leadership-focused experiences**. Building upon its success, Astral Summit 2.0 expanded its scope by **introducing a wider range of academic and skill-based competitions, attracting a diverse community of participants and further strengthening its impact within the youth engagement ecosystem**.

Now, Astral Summit 3.0 marks our most ambitious edition yet. **Bringing together debate competitions, entrepreneurship challenges, auction houses, and creative showcases under one roof, the Summit offers delegates a unique opportunity to compete, collaborate, and learn across multiple disciplines. More than just an event, The Astral Summit is a platform where ideas are challenged, skills are tested, and future leaders are inspired.**

As we continue to grow, our mission remains unchanged: **to create transformative experiences that empower young people to think critically, lead confidently, and make a meaningful impact in an ever evolving world.**

AGENDA

First Contact: Deliberation on Humanity's
Response to Extraterrestrial Arrival

Agenda Overview :

A spacecraft enters Earth's orbit.
The occupants identify themselves as the
Aurelians. They possess technology centuries
ahead of humanity.

They offer three gifts:

- Unlimited clean energy
- Instant medical cures
- Interstellar travel

In return, they demand access to Earth's political
systems and cultural institutions. Humanity has
one year to decide.

Entrepreneurial Competitions

Financial Case Competition

Every business has to make important money decisions.

In a Finance Case Competition, you solve challenges related to investments, profits, costs, budgeting, or business expansion. You use data and logic to decide how a company can use its money most effectively.

Think of it as: Being the company's financial advisor and helping it make smart money moves.

EARLY BIRD OFFER

~~₹1500~~

ACTIVE NOW AT

Marketing Case Competition

Ever wondered how brands like Nike or Coca-Cola stay popular?

In a Marketing Case Competition, you are given a real-world business problem, such as declining sales or low brand awareness. Your team analyzes the situation and comes up with creative strategies to attract customers and grow the brand. Think of it as becoming the company's marketing team and helping it win more customers.

What if you had an idea that could become the next big startup?

In a B-Plan Competition, you create a business idea from scratch and explain how it will solve a problem, attract customers, generate revenue, and grow in the future.

You then pitch your idea to the judges, just like entrepreneurs pitch to investors.

Think of it as: Presenting your own startup on Shark Tank.

Team of 3 • Single Day event

CASH PRIZE

Best Team - 10,000/-
